POTATO CLASSIFICATION CHANGE ANNOUNCED

Commissioner of Agriculture, Maynard C. Dolloff announced Sept. 20, the withdrawal of the "Cull" classification from Maine State potato grades.

The classification has been in use for one shipping season but, Dolloff said, "a public hearing was held at Presque Isle two weeks ago today (Sept. 20) and in the ten days following, which are allowed for filing written testimony, we did not receive one request for continuance."

"On the contrary," he said, "we did receive letters from individuals and organizations asking for withdrawal of the classification."

At the hearing on Sept. 6, the Maine Potato Council, principal industry organization, advocated the removal of the "Cull" classification.

Letters asking withdrawal included, Dolloff said, one from the United Potato Producers of Maine, a growers' organization.

"We view the expressions from the industry as indicating a clear-cut intention to improve its competitive position in the market," Dolloff concluded.

Virginia E. Herrick Meetings are going to be held the second Tuesday in every month. Dues are to be in November.

Work has begun on the lot for the new Ledgeview Memorial Home for the sick and convalescent which is located on Route 26 below Trap Corner.

Many attended the banquet held in the Grange Hall on Wednesday evening, Sept. 13, for the promotion and advertising of the facility.
